

Leicester Fertility Centre

As a fertility clinic we understand that embarking on fertility treatment is a significant decision, both emotionally and financially; for many it will be stressful and potentially costly.

Our price list reflects the requirements of the Competition and Markets Authority (CMA), the Advertising Standards Authority (ASA) and also the Human Fertilisation and Embryology Authority (HFEA). It is designed to give you a clear overview of what is included within your care package at every stage of your journey with us, from initial investigations and treatments to any additional tests, giving you opportunity to financially plan for your care. Leicester Fertility Centre fees are reviewed annually, if the pricing structure changes a notice period of 30 days will apply.

- We accept most debit or credit cards. We are unable to take cash, cheque payments or American Express.
- The price and type of your consultation will be confirmed and payment taken at the time of booking, you will be emailed confirmation details following your payment.
- There is a charge for consultation appointments cancelled, by you, within 24 hours of the appointment time.
- Medication costs are not included in treatment prices. These are discussed and decided upon with your clinicians. Following your planning consultation the medication you need may change depending on how you respond during treatment. Additional costs will be added to your invoice.
- Your costed treatment plan will remain valid for a period of 60 days. If you do not start treatment within 60 days, you may be required to re-plan your treatment.
- All appointments, investigations, blood tests, medications and treatments must be paid for in advance. Non-payment of invoices may result in treatment delay or cancellation. Treatment cannot begin until the payment for treatment has been received in full.
- If you decide to withdraw from the treatment, no refund will be given for any medication, consultations, procedures, scans or blood tests already undertaken. Some treatments require that patients are registered with the HFEA. In the event of cancellation or halted treatment, HFEA fees, of £100 per patient for IVF, £40 per patient for DI, are non-refundable. See our refund policy and our terms and conditions in the event treatment is halted.
- Refunds are processed back onto the card you used to pay. Please allow 7 days for the refund to appear on your bank statement.

Price List

Effective 01.04.2024

Starting Your Journey

You will need an initial new patient consultation with one of our consultant fertility specialists prior to setting out on your journey. You will need a planning consultation before any treatment. You may also need some additional tests, to help us recommend the best treatments for you.

New Patient Consultation	£210
Planning Consultation	£185
Shared Motherhood Planning Consultation	£250
Follow up Consultation	£80
Counselling - Mandatory for certain treatments, otherwise it is optional but available to all patients	No Charge
Appointment Cancellation Fee - Cancellation, by patient, within 24 hours of appointment	£60
Viral Screening Package Price Per Patient & Partner Tests are for HIV1+2, HTLV1+2, HepC, HepB core & surface & TPHA	£158
Hysterosalpingo-Contrast Sonography (HyCosy)	£420
Detailed Semen Analysis includes including paper copy & telephone discussion with a member of the lab team	£125
Retrograde Sample Examination	£200
AMH Blood Test	£95

Additional Diagnostic Investigations

The consultant may speak to you about the possible benefits of having blood tests during your treatment in addition to standard screening bloods required by the HFEA. This can be for a number of reasons including optimisation of your treatment cycle or for your continued physical health. You will have time to consider any suggestion prior to you having the blood sample taken, during which time you may seek a second opinion.

Semen Analysis	£125
HB Screen & FBC	£55
Cytomegalovirus	£35
Rubella Antibody	£35
Chlamydia	£40
Full Blood Count	£30
Vitamin D	£55
Blood Group	£40
Cystic Fibrosis	£310
Karyotype	£320
Fragile X	£340
Y Chromosome Deletion	£210
Serum Iron	£25
HIV PCR	£120
Follicle Stimulating Hormone & Luteinising hormone (FSH & LH)	£40
Progesterone	£30
Prolactin	£35
Testosterone	£35
17 Beta Oestradiol	£35
Thyroid Function Test	£35
Beta HCG	£35
VDRL/TPHA	£36
Thrombophilia Screen	£190
Sex Hormone Binding Globulin (SHBG)	£30
Androstendione	£30
DHEA	£30
STDx Blood Test NAATS testing for HIV-1, HIV-2, Hep-B & Hep-C	£90

Additional Treatments & Charges

Any additional costs for add-ons are clearly detailed and will be explained. These will be on a clinical need basis and any risks/benefits explained to you. We will direct you to the HFEA website and the traffic light system for add-ons and the reason for using add-ons. This will explain any evidence to support the use of add-on treatments increasing the chances of a live birth and any risks that may be associated with add on treatments.

Private Interpreter Charge	£60
Geri Time-Lapse video of embryo development	£30
Endometrial Scratch	£270
Biopsy	£100
Cyst Aspiration	£420
Trial of catheter with use of Dilapan	£150
Trial Catheter	£110
Anaesthetic Cover for embryo transfer, endometrial scratch and/or trial catheter	£420
Access Fertility Supply Of Donor Sperm	£1100
High Vaginal Swab	£50
Chlamydia/Gonorrhoea and High Vaginal Swab Combined	£125
Single Ultrasound	£100
Administration Fee For Exporting Gametes Overseas	POA
Administration Fee For The Transfer Or Receipt Of Gametes/Embryos	£200

Recurrent Implantation Failure Investigations

Unfortunately not every embryo, even those which are top quality, will result in a positive pregnancy test or ongoing pregnancy. Your consultant may suggest one or more of the following tests to help determine if there are any identifiable underlying conditions why this may be happening to you. These tests are only carried out after a number of failed attempts and are not suitable for all patients.

Recurrent Implantation Failure Investigations Package Includes: Fasting homocysteine, Anti-Cardiolipin antibodies, Lupus anti coagulant anti bodies, Thyroid peroxidase antibodies & Coeliac disease screening	£200
Fasting Homocysteine	£40
Anti-Cardiolipin Antibodies	£60
Lupus Anti Coagulant Antibodies	£40
Thyroid Peroxidase Antibodies	£30
Coeliac Antibody Screen	£30
nk Cell (Uterine) Testing This test is not carried out at our centre. Please discuss this with your clinician	£POA
Karyotype	£320

PGT-A

We offer Pre-implantation genetic testing of embryos for aneuploidy (PGT-A). The possible benefits and risks of this add-on procedure will be discussed with you by your consultant. We will direct you to the HFEA website and the traffic light system for add-ons and the rationale for use of add-ons. Following the New Patient Initial Consultation, for £210, the IVF or ICSI Package required will include:

- Embryo Biopsy
- Pre implantation genetic analysis (PGT-A) for first embryo
- MDT to review results
- 1 specialist genetic counselling session
- Embryo freezing for 3 years
- First embryo thaw and transfer -including HFEA registration fee

Follow up Consultation to discuss PGT-A results	£80
Planning Consultation to plan IVF/ICSI with PGT-A results	£185
Planning Consultation to plan FET with PGT-A results	£185
IVF + PGT-A for first embryo	£4455
ICSI +PGT-A for first embryo	£5710
Additional PGT-A Testing Per Embryo	£595
Administration Fee patient registration non refundable	£100
Subsequent Frozen Embryo Transfers not including drugs	£1465
Additional 7 Yr Embryo Storage	£700
Additional Genetic Counselling Per Session	£175

Insemination Treatment IUI & DI

This treatment may not be suitable for all our patients, advice will be given by your consultant. If your cycle is halted, you will need to pay for the ultrasound scans that you have had in that cycle. Donor Insemination costs include the HFEA fee, Medication is additional, the fee's include:

- Counselling
- Laboratory preparation of semen sample
- Insemination with a clinical nurse specialist

Intra-uterine Insemination (IUI) Natural or Clomid cycle	£800
Intra-uterine Insemination (IUI) Gonadotrophin cycle	£850
Donor Insemination (DI) Natural or Clomid cycle includes donor sperm	£1455
Donor Insemination (DI) Gonadotrophin cycle includes donor sperm	£1500
Donor Insemination (DI) Natural or Clomid cycle with imported donor sperm	£840
Ovitrelle Trigger Injection	£21
Ovulation Induction	£350

Fresh Treatment IVF and ICSI

Your consultant will advise if these treatments are suitable for you. Medication is an additional cost. Along with the HFEA registration fee, the prices include;

- All scans including an early pregnancy scan if required
- Counselling
- Egg collection including anaesthetic service & review if required
- Embryo transfer with embryo glue
- photograph of embryo transfer time lapse video available for additional fee

In Vitro-Fertilisation IVF own eggs with partner sperm	£3270
In Vitro-Fertilisation (IVF- DI) own eggs with donor sperm included	£3940
In Vitro-Fertilisation IVF when also sharing your own eggs with another patient	£1000
In Vitro-Fertilisation (IVF) donated eggs with partner's sperm, includes investigations for donor and recipient, not partner	£6270
Intra-Cytoplasmic Sperm Injection (ICSI) Per cycle	£1320
Cryopreservation of Surplus Embryos 3 yrs storage of suitable embryos created following egg collection and transfer.	£500
Access Fertility Price For Donor Sperm	£1100
Freeze All in the event that a clinician recommends freezing of all embryos due to medical reasons, such as the risk of OHSS or inability to transfer embryos, there will be no charge for freezing the embryos and they will be stored for a 12 month period without charge. You will be required to pay for the frozen embryo treatment cycle, Planning consultation and for your medication.	POA
Screening for Posthumous Use to allow future use of embryos, by partner and surrogate, at a dedicated surrogacy fertility centre.	£2000
Medication see medication price list	

Depending on how you respond to medication during treatment, you may be required to pay for additional medication.

Frozen Treatment FET

This treatment is only applicable for those with stored embryos, eggs or those receiving donated embryos. Medication is an additional cost. Depending on how you respond to medication during treatment, you may be required to pay for additional medication.

- All scans including an early pregnancy scan if required
- Counselling
- Embryo transfer with embryo glue
- Thawing of embryo(s) for treatment

Frozen Transfer FET own embryo(s)	£1465
Own Egg Thaw FET and ICSI donor sperm is an additional cost	£2785
Frozen Transfer FET donated embryo(s)	£3515
Medication see medication price list	

Known Donor

We support the LGBTQ+ communities and single females wishing to start a family. This treatment package enables an individual, who is not the partner of the commissioning patient/couple seeking treatment, to set up as a 'known donor'. This means that the egg or sperm obtained are solely for the use of the commissioning female/couple. Medication is an additional cost. These prices include;

- All nursing and lab appointments
- Viral screening
- Any monitoring scans for the donor
- Blood group, Haemoglobinopathy, Cytomegalovirus, CMV IgG and IgM, VDRL & Chlamydia
- Genetic screening Cystic Fibrosis screening & Karyotype
- Counselling
- Physical examination
- Egg collection including anaesthetic services and review
- HFEA fee(s)
- Freezing and storage of up to 2 sperm samples for use in treatment
- Storage of gametes for 3 years

Please note, donor specific screening bloods are not included, as these depend on patient ethnicity, in accordance with HFEA code of practice

Known Sperm Donor	£2515
Known Egg Donor (Investigations, retrieval & storage)	£4900
Known Egg Donor (recipients investigations & transfer)	£1865

Depending on how the donor & recipient responds to medication during treatment, you may be required to pay for additional medication.

Shared Motherhood

This treatment allows for a female partner to create embryos using her own eggs, sharing them with her partner who will carry the pregnancy. Following your New Patient Initial consultation, which costs £210, and any investigations that are advised in that appointment, you will be ready to plan your journey. If you enroll with Access fertility, they will cover the fee for your egg collection and FET, they will not cover the cost for consultations, blood tests or donor sperm. The HFEA registration fees for both of you are included in the treatment price, however your medication is not, the prices include;

- All monitoring scans for both Donor and Carrier
- Counselling
- Donor investigations Hb & FBC, Cytomegalovirus CMV IgG and IgM
- Donor & Carrier Viral Screening
- Carrier Rubella, HB & FBC, Cytomegalovirus CMV IgG and IgM
- Donor sperm, reduction of £670 if you outsource donor sperm.
- Donor Egg collection including anaesthetic service & review if required
- Carrier Embryo transfer with embryo glue
- Early pregnancy scan

Please note, donor specific screening bloods are not included, as these depend on patient ethnicity, in accordance with HFEA code of practice.

Shared motherhood Planning Consultation	£250
Shared motherhood treatment with sperm from our donors includes investigations & procedures	£5930
Shared motherhood treatment with outsourced sperm includes investigations & procedures	£5260
Cryopreservation Of Surplus Embryos 3 yrs storage of suitable embryos created following egg collection and transfer.	£500
FSH Donor Short cycle (antagonist) 7x 0.25mg Cetorelix or Ganirelix, 50 amps Menopur or Meriofert or Fostimon, 2x Ovitrelle, 5 Doxycycline tablets and injection kit.	£1250
FSH & LH Donor Short cycle (antagonist) 7x 0.25mg Cetorelix or Ganirelix, 3x 900iu Ovaleap or Gonal F, 2x Ovitrelle, 5 Doxycycline tablets and injection kit.	£970
Donor Long cycle (agonist) 2x Suprecur bottles, 50 amps Menopur/Meriofert or Fostimon, 2x Ovitrelle, 5 Doxycycline tablets and injection kit.	£1145
Donor Long cycle (agonist) 2x Suprecur bottles, 3x 900iu Ovaleap or Gonal F, 2x Ovitrelle, 5 Doxycycline tablets and injection kit.	£865
Carrier Long Cycle (Agonist) 2x Suprecur bottles, 3 boxes of either Elleste Solo 2mg tablets or Zumenon 2mg tablets, 30 Cyclogest pessaries and injection kit.	£202
Carrier Short Cycle (Antagonist) 5x Ganirelix or Cetorelix, 3 boxes of Elleste Solo or Zumenon 2mg tablets, 30 Cyclogest pessaries, 2 weeks of Lubion and injection kit.	£385
Shared motherhood further frozen embryo transfers	£1465

Depending on how the donor responds to medication during treatment, you may be required to pay for additional medication.

Male Treatments

Depending on how you respond to medication during treatment, you may be required to pay for additional medication.

Treatment packages may not be suitable for all patients; your consultant will advise you. Medications is not included. The prices do include:

- All laboratory appointments
- Semen Analysis
- Freezing of up to 2 samples, within an agreed time period
- Storage of samples, for an agreed amount of time, up to a maximum of 2 years

Surgical Sperm Retrieval includes 1 year storage	£1950
Sperm Freezing Prior To Treatment includes 1 year storage	£370
Retrograde Freezing Prior To Treatment includes 1 year storage	£570
Sperm Induction With Gonadotrophins price per month	£1000

Storage Charges

Following the initial storage of your eggs, embryos or semen samples, you will be invited to extend the storage period, in some cases you may also be required to extend your storage consent period. You will be charged the current prices at the time you extend storage. There are no refunds for part storage periods or if the gametes have been used in treatment before the expiry period. Please see our refund policy for full details. The prices quoted are for storage only and do not cover the cost of usage or any additional test(s) or treatment. Samples can be stored for a maximum for 55 years, this is at the cost of the patient.

3 Yr Sperm Storage	£500
7 Yr Sperm Storage	£700
3 Yr Embryo/Egg Storage	£500
7 Yr Embryo/Egg Storage	£700
Sibling Sperm Reservation includes 3 years storage for use at LFC only	£500

Fertility Preservation

Depending on how you respond to medication during treatment, you may be required to pay for additional medication.

Some patients may benefit cryopreservation (freezing) of their egg or sperm samples, prior to undergoing a medical procedure, or taking medication that may impact their future fertility. Others may benefit from the opportunity to cryopreserve samples for use at a later date, for personal or social reasons. We recommend visiting the HFEA website for additional advice and guidance. Medication costs are not included in these costs.

The prices for egg freezing includes;

- Egg collection including anaesthetic services and review
- Freezing of all mature egg(s) retrieved during collection
- Counselling
- All nurse appointments and scans
- All blood screening tests

The price for sperm freezing includes:

- Freezing of up to 2 semen samples within an agreed time period
- All blood screening tests
- Counselling

Planning Consultation to plan egg freeze	£185
Sperm Freezing & 3 years storage	£840
Sperm Freezing & 7 years storage	£1150
Sperm Freezing & 10 years storage	£1400
Egg Freezing & 3 years storage	£3110
Egg Freezing & 7 years storage	£3300
Egg Freezing & 10 years storage	£3600

International Egg Donor Programme

Patients may choose to travel overseas for egg donor treatment. The Leicester Fertility Centre offers a satellite service with our partner clinic Instituto Bernabeu (Spain) to facilitate treatment.
